

Your success is our success

# AppScan for You

Personalized advisory services for the health and success of your AppSec program.

We're invested in your success, and we want you to make the most of your investment in AppScan. We understand your organization is unique: out-of-the-box solutions can't fit every application security program and they might not fit yours. With over 20 years of experience in the AppSec industry, AppScan provides the right tools for the job - with experienced and strategic guidance to do it well with **AppScan for You**. AppScan for You delivers personalized advisory services targeted to the health and success of your AppSec goals.

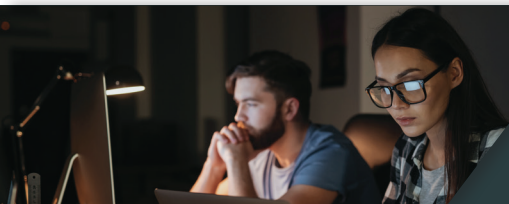

When you subscribe to AppScan for You, HCL's team of AppSec experts assigns you a **Security Success Partner**. This dedicated resource is your trusted advisor, meeting with you regularly and partnering with you to drive the success of your AppSec program. Your Security Success Partner works with you to define short- and long-term AppSec goals, identify appropriate success metrics, and implement actionable best practices tailored to your organization's objectives.

In addition to your Security Success Partner, your team can Ask an Expert. Our technical application security experts, or **Experts on Demand**, are an extension of your application security team, delivering one-on-one virtual coaching to assist with the details of application security. Our Experts on Demand are here to help, from configuring and running scans to interpreting findings and providing mitigation and remediation guidance. With a simple click of a button, your team can schedule a time that is convenient for them to meet with an AppScan Expert.
