HCL Workload Automation

# HCL Workload Automation

The enterprise class scheduler with the lowest TCO on the market

SAP® Certified  
Integration with SAP S/4HANA®

## Overview

HCL Workload Automation boosts your business with the most advanced jobs scheduling, management and monitoring capabilities to seamlessly orchestrate complex workflows across multiple platforms and applications. Our platform acts as a meta-orchestrator for continuous automation, leveraging containerization and an intuitive user interface, while offering the lowest TCO on the market. All in one place.

## Capabilities

	<b>Single point of access</b>	<ul style="list-style-type: none"> <li>• Create, manage and monitor multiple jobs and job streams using graphical views, embedded analytics and easy-to-customize dashboards</li> <li>• De-risk your business and avoid business flows interruptions thanks to powerful jobs and job streams modeling and policies' definition</li> </ul>
	<b>Orchestration and deployment with containers</b>	<ul style="list-style-type: none"> <li>• Full support for containerized environments: orchestrate applications deployed in containers and optimize costs, including hybrid environments</li> <li>• Simplify the deployment, upgrades and high availability scenarios using Docker versions (agent, server, UI)</li> </ul>
	<b>Outstanding scalability and zero downtime for upgrades</b>	<ul style="list-style-type: none"> <li>• Connect and automate tasks run by local agents, agentless or through APIs</li> <li>• Upgrade the agents without impacting the scheduling activity: enjoy no interruption for maintenance, zero-downtime and a constantly updated environment</li> </ul>
	<b>Scale and navigate business processes with the new workflow folders</b>	<ul style="list-style-type: none"> <li>• Define custom categories, enable specific users to manage the folders or simply browse them</li> <li>• Make the folders as flexible as you need, while monitoring them</li> </ul>

### Machine-learning powered predictive scheduling

- Dynamically manage critical paths, predictively determine scheduled job durations, trends and cycles
- Simulate planned and unplanned events, enable impact analysis on single or multiple workflows
- Take real time data-driven decisions thanks to machine-learning algorithms

### Lifecycle management of changes with versioning and auditing control

- Manage scheduling definitions as group of objects to enable the export & import from and to different environments
- Take advantage of the versioning and release management feature, keeping trace of people responsible for changes, reasons of changes and any relation between changes and support cases

## Benefits

### A digital transformation booster

HCL Workload Automation helps you automate beyond the boundaries, supporting multiple platforms, providing an advanced integration with enterprise applications such as SAP (Workload Automation is HANA S/4 certified), Oracle, Salesforce, and more, as well as with cloud resources, database/ETL management and more. Simplify and standardize the connection and orchestration of workloads from and to business intelligence and data processing applications with 40+ out-of-the-box plugins and 100+ supported technologies.

### Lowest TCO on the market

Stop worrying about costs, start enjoying all of the Workload Automation features. There are no hidden costs: you buy HCL Workload Automation we give you the whole suite of plugins to easily connect activities and resources from common ERPs, Clouds, Databases, APIs, plus an all-inclusive product license with advanced capabilities and multiplatform support.

### Simplify and control complexity

HCL Workload Automations allows you to easily design the dynamic resolution of complex applications interdependencies in heterogeneous ecosystems. Schedulers and Operators love it for its flexibility and Executives feels safer with a robust long-time market leader technology that takes care of the organization business continuity.

### First class customer programs

Adopting HCL Workload Automation makes you part of a large community of users and offers you the possibility to partner with the Labs, Designers and Product Management teams to understand the potential of the automation engine you have in your hands. Take part in transparent development activities, unleash your creativity during design thinking sessions, enjoy a dedicated customer advocate and make the most out of early bird access to new releases. Your feedback will shape the future of the product you love.

### A full range of services

Take advantage of a wide range of services offered by the best HCL experts. We can provide assistance for upgrades, migration, implementation, application integration and health check. Moreover, we can cover your needs and help you detect them with on demand workshops, to deep dive product features or business scenarios implementations.

Safeguard mission critical workloads and accelerate event-driven automation with the one-stop automation orchestrator. Explore [more](#). Contact us at [HWInfo@hcl.com](mailto:HWInfo@hcl.com)

#### About HCL Software

HCL Software is a division of HCL Technologies (HCL) that operates its primary software business. It develops, markets, sells, and supports over 20 product families in the areas of DevOps, Automation, Digital Solutions, Data Management, and Mainframes. HCL Software has offices and labs around the world to serve thousands of customers. Its mission is to drive ultimate customer success with their IT investments through relentless innovation of its products.
