

LICENSE INFORMATION

The Programs listed below are licensed under the following License Information terms and conditions in addition to the Program license terms previously agreed to by Client and HCL. If Client does not have previously agreed to license terms in effect for the Program, the HCL Master License Agreement applies.

Program Name (Program Number):
HCL Opportunity Detect 11.0 (5725-D22)

The following standard terms apply to Licensee's use of the Program.

Limited use right

As described in the HCL Master License Agreement and this License Information, HCL grants Licensee a limited right to use the Program. This right is limited to the level of Authorized Use, such as a Processor Value Unit ("PVU"), a Resource Value Unit ("RVU"), a Value Unit ("VU"), or other specified level of use, paid for by Licensee as evidenced in the Proof of Entitlement. Licensee's use may also be limited to a specified machine, or only as a Supporting Program, or subject to other restrictions. As Licensee has not paid for all of the economic value of the Program, no other use is permitted without the payment of additional fees. In addition, Licensee is not authorized to use the Program to provide commercial IT services to any third party, to provide commercial hosting or timesharing, or to sublicense, rent, or lease the Program unless expressly provided for in the applicable agreements under which Licensee obtains authorizations to use the Program. Additional rights may be available to Licensee subject to the payment of additional fees or under different or supplementary terms. HCL reserves the right to determine whether to make such additional rights available to Licensee.

Supporting Programs

The Program is licensed as a multi-product package and includes the Supporting Programs identified below. Licensee is authorized to install and use such Supporting Programs only to support Licensee's use of the Principal Program under this Agreement and within the limits of the Proofs of Entitlement for the Program (unless broader rights are provided elsewhere in this License Information document). The phrase "to support Licensee's use" would include only those uses that are necessary or otherwise directly related to a licensed use of the Principal Program or another Supporting or Bundled Program. The Supporting Programs may not be used for any other purpose. Licensee is not authorized to transfer or remarket the Supporting Programs separate from the Principal Program. A Supporting Program may be accompanied by license terms, and those terms, if any, apply to Licensee's use of that Supporting Program. In the event of conflict, the terms in this License Information document supersede the Supporting Program's terms. When Licensee's right to use the Program expires or terminates, Licensee must discontinue use, destroy or promptly return all copies of the Supporting Programs to the party from whom Licensee acquired the Program. If Licensee downloaded the Supporting Programs, Licensee should contact the party from whom Licensee acquired the Program. If Licensee wishes to license the Supporting Programs for any use beyond the limits set forth above, please contact an HCL Sales Representative or the party from whom Licensee acquired the Program to obtain the appropriate license.

The following are Supporting Programs licensed with the Program:

IBM WebSphere Application Server V8.5.5

IBM DB2 Workgroup Edition V11.1

HCL Marketing Platform V11.0

IBM Urban Code Deploy V6.2.1

IBM InfoSphere Streams V3.2.1.2

Privacy

Licensee acknowledges and agrees that IBM may use cookie and tracking technologies to collect personal information in gathering product usage statistics and information designed to help improve user experience and/or to tailor interactions with users in accordance with the HCL online Privacy Statement.

Benchmarking

Licensee may disclose the results of any benchmark test of the Program or its subcomponents to any third party provided that Licensee (A) publicly discloses the complete methodology used in the benchmark test (for example, hardware and software setup, installation procedure and configuration files), (B) performs Licensee's benchmark testing running the Program in its Specified Operating Environment using the latest applicable updates, patches and fixes available for the Program from HCL or third parties that provide HCL products ("Third Parties"), and (C) follows any and all performance tuning and "best practices" guidance available in the Program's documentation and on HCL's support web sites for the Program. If Licensee publishes the results of any benchmark tests for the Program, then notwithstanding anything to the contrary in any agreement between Licensee and HCL or Third Parties, HCL and Third Parties will have the right to publish the results of benchmark tests with respect to Licensee's products provided HCL or Third Parties complies with the requirements of (A), (B) and (C) above in its testing of Licensee's products.

Notwithstanding the foregoing, under no circumstances may Licensee publish the results of benchmark tests run on Oracle Outside In Technology without prior written permission.

The above benchmarking terms apply to the following Programs or subcomponents:

HCL Opportunity Detect 11.0

Prohibited Uses

Licensee may not use or authorize others to use the Program, alone or in combination with other services or products, in support of any of the following high risk activities: design, construction, control, or maintenance of nuclear facilities, mass transit systems, air traffic control systems, automotive control systems, weapons systems, or aircraft navigation or communications, or any other activity where program failure could give rise to a material threat of death or serious personal injury.

Export and Import Restrictions

This Program may contain cryptography. Transfer to, or use by, users of the Program may be prohibited or subject to export or import laws, regulations or policies, including those of the United States Export Administration Regulations. Licensee assumes all responsibility for complying with all applicable laws, regulations, and policies regarding the export, import, or

use of this Program, including but not limited to, U.S. restrictions on exports or reexports.

The following units of measure may apply to Licensee's use of the Program.

Resource Value Unit (RVU)

Resource Value Unit (RVU) is a unit of measure by which the Program can be licensed. RVU Proofs of Entitlement are based on the number of units of a specific resource used or managed by the Program. Licensee must obtain sufficient entitlements for the number of RVUs required for Licensee's environment for the specific resources as specified in the table below. RVU entitlements are specific to the Program and the type of resource and may not be exchanged, interchanged, or aggregated with RVU entitlements of another program or resource.

In addition to the above, the following terms apply to Licensee's use of the Program.

The Resource for the purpose of the RVU calculation is one hundred thousand (100,000) Production Account Records. An Account Record is a unique entity (for example, a particular account, customer, or household) that is monitored for transactional activity by the Program. An Account Record is in Production when the Program is run in an environment other than internal development, test, or backup.

From 1 to 2 Resources, 1.00 RVU per Resource

From 3 to 5 Resources, 2 RVUs plus 0.90 RVUs per Resource above 2

From 6 to 10 Resources, 4.7 RVUs plus 0.80 RVUs per Resource above 5

From 11 to 20 Resources, 8.7 RVUs plus 0.70 RVUs per Resource above 10

From 21 to 35 Resources, 15.7 RVUs plus 0.60 RVUs per Resource above 20

From 36 to 50 Resources, 24.7 RVUs plus 0.45 RVUs per Resource above 35

For more than 50 Resources, 31.45 RVUs plus 0.30 RVUs per Resource above 50
