

LICENSE INFORMATION

Program Name:

HCL Domino Complete Collaboration 11.0.1

The following standard terms apply to Licensee's use of the Program HCL Domino Complete Collaboration. The Program is provided in two models with separate entitlement requirements:

- 1) HCL Domino Complete Collaboration 11.0.1 Business Edition, also referenced herein as "CCB" and "Principal Program".
- 2) HCL Domino Complete Collaboration 11.0.1 External User, an add-on to CCB which is referenced herein as "CCX".

Limited use right

As described in the HCL Master License Agreement ("MLA") available at:

<https://www.hcltechsw.com/wps/portal/resources/master-agreements> and this License Information document, HCL grants Licensee a limited right to use the Program. This right is limited to the level of Authorized Use, such as an Authorized User, a Processor Value Unit, or other specified level of use, paid for by Licensee as evidenced in the Proof of Entitlement. Licensee's use may also be limited to a specified machine, or only as a Supporting Program, or subject to other restrictions. As Licensee has not paid for all of the economic value of the Program, no other use is permitted without the payment of additional fees. In addition, Licensee is not authorized to use the Program to provide commercial IT services to any third party, to provide commercial hosting or timesharing, or to sublicense, rent, or lease the Program unless expressly provided for in the applicable agreements under which Licensee obtains authorizations to use the Program. Additional rights may be available to Licensee subject to the payment of additional fees or under different or supplementary terms. HCL reserves the right to determine whether to make such additional rights available to Licensee.

Specifications

Program's specifications can be found in the collective Description and Technical Information sections of the Program's Announcement Letters, and Product License Information Documents.

Prohibited Uses

Licensee may not use or authorize others to use the Program if failure of the Program could lead to death, bodily injury, or property or environmental damage.

Multi-Product Install Image

The Program is provided as part of a multi-product install image. Licensee is authorized to install and use only the Program (and its Bundled or Supporting Programs, if any) for which a valid entitlement is obtained and may not install or use any of the other software included in the image unless Licensee has acquired separate entitlements for that other software.

Supporting Programs

Licensee is authorized to install and use the Supporting Programs identified below. Licensee is authorized to install and use such Supporting Programs only to support Licensee's use of the Principal Program under this License Information document and the MLA. The phrase "to support Licensee's use" would only include those uses that are necessary or otherwise directly related to a licensed use of the Principal Program or another Supporting Program. The Supporting Programs may not be used for any other purpose. A Supporting Program may be accompanied by license terms, and those terms, if any, apply to Licensee's use of that Supporting Program. In the event of conflict, the terms in this License Information document supersede the Supporting Program's terms. Licensee must obtain sufficient entitlements to the Program, as a whole, to cover Licensee's installation and use of all of the Supporting Programs, unless separate entitlements are provided within this License Information document.

The following are Supporting Programs licensed with the Program:

HCL Domino

HCL Notes

HCL Domino Enterprise Client Access

HCL Client Application Access

HCL Domino Designer

HCL Verse

HCL Traveler

HCL Nomad

HCL Notes Dictionaries

HCL Sametime (except the prohibited components as set forth below)

HCL Connections (only the permitted functions of the Profiles and Files components as set forth below)

HCL Connections Docs (except the prohibited components as set forth below)

HCL Connections Content Manager Connector for Notes

HCL Domino AppDev Pack

InstallShield Tuner for Notes

HCL Traveler for Microsoft Outlook

HCL SafeLinx

SwiftFile for HCL Notes

IBM DB2 Enterprise Server Edition

Supporting Programs Detail

If Licensee uses the Google Web Search feature of the Program, Licensee acknowledges that Google, Inc., owns all right, title and interest, including without limitation all intellectual property rights, in and to the Google Web Search Service (including Google's search engine technology and Google brand features, and excluding items licensed by Google from third parties), and that Licensee does not acquire any right, title, or interest in or to the Google Web Search Service (including Google's search engine technology and Google brand features) by using this feature.

If Licensee uses the Yahoo! Web Search feature of the Program, Licensee must review and agree to be bound by the Terms of Service set forth at: <http://info.yahoo.com/legal/us/yahoo/utos/utos-173.html>. If Licensee uses the Yahoo! Web Search feature of the Program in a country other the United States, Licensee must review and agree to be bound by the Terms of Service applicable to such country set forth at: <http://world.yahoo.com/>.

Permitted Components

Notwithstanding anything to the contrary herein, Licensee is permitted to use only the following components or functions of the identified Bundled or Supporting Program:

Files (of HCL Connections)

Profiles (of HCL Connections)

IBM DB2 Enterprise Server Edition can only be used with HCL Traveler

Prohibited Components

Notwithstanding anything to the contrary herein, Licensee is not authorized to use any of the following components or functions of the Program:

Access to File Transfer (of HCL Sametime)

Screen Capture (of HCL Sametime)

Multiple Communities (of HCL Sametime)

External users (of HCL Sametime)

Embedded Audio/Video features (of HCL Sametime)

External conferencing integration (of HCL Sametime)

Editor Application (of HCL Connections Docs)

Editor Extension (of HCL Connections Docs)

Editor Proxy (of HCL Connections Docs)

Privacy

Licensee acknowledges and agrees that HCL may use cookie and tracking technologies to collect personal information in gathering product usage statistics and information designed to help improve user experience and/or to tailor interactions with users in accordance with the HCL

Privacy Statement, available at:

<https://www.hcltechsw.com/wps/portal/resources/master-agreements>.

Redistributables

If the Program includes components that are “Redistributable”, they will be identified in the REDIST file that accompanies the Program. In addition to the license rights granted in the MLA, Licensee may distribute the Redistributables subject to the following terms:

- 1) Redistribution must be in object code form only and must conform to all directions, instruction and specifications in the Program's accompanying REDIST or documentation;
- 2) If the Program's accompanying documentation expressly allows Licensee to modify the Redistributables, such modification must conform to all directions, instruction and specifications in that documentation and these modifications, if any, must be treated as Redistributables;
- 3) Redistributables may be distributed only as part of Licensee's application that was developed using the Program ("Licensee's Application") and only to support Licensee's customers in connection with their use of Licensee's Application. Licensee's Application must constitute significant value add such that the Redistributables are not a substantial motivation for the acquisition by end users of Licensee's software product;
- 4) If the Redistributables include a Java Runtime Environment, Licensee must also include other non-Java Redistributables with Licensee's Application, unless the Application is designed to run only on general computer devices (for example, laptops, desktops and servers) and not on handheld or other pervasive devices (i.e., devices that contain a microprocessor but do not have computing as their primary purpose);
- 5) Licensee may not remove any copyright or notice files contained in the Redistributables;
- 6) Licensee must hold HCL, its suppliers or distributors harmless from and against any claim arising out of the use or distribution of Licensee's Application;
- 7) Licensee may not use the same path name as the original Redistributable files/modules;
- 8) Licensee may not use HCL's, its suppliers or distributors names or trademarks in connection with the marketing of Licensee's Application without HCL's or that supplier's or distributor's prior written consent;
- 9) HCL, its suppliers and distributors provide the Redistributables and related documentation without obligation of support and "AS IS", WITH NO WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING THE WARRANTY OF TITLE, NON-INFRINGEMENT OR NON-INTERFERENCE AND THE IMPLIED WARRANTIES AND CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE;
- 10) Licensee is responsible for all technical assistance for Licensee's Application and any modifications to the Redistributables; and
- 11) Licensee's license agreement with the end user of Licensee's Application must notify the end user that the Redistributables or their modifications may not be i) used for any purpose other than to enable Licensee's Application, ii) copied (except for backup purposes), iii) further distributed or transferred without Licensee's Application or iv) reverse assembled, reverse compiled, or otherwise translated except as specifically permitted by law and without the possibility of a contractual waiver. Furthermore, Licensee's license agreement must be at least

as protective of HCL as the terms of the MLA.

Source Components and Sample Materials

The Program may include some components in source code form ("Source Components") and other materials identified as "Sample Materials". Licensee may copy and modify Source Components and Sample Materials for internal use only provided such use is within the limits of the license rights under this License Information document and MLA, provided however that Licensee may not alter or delete any copyright information or notices contained in the Source Components or Sample Materials. HCL provides the Source Components and Sample Materials without obligation of support and "AS IS", WITH NO WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING THE WARRANTY OF TITLE, NON-INFRINGEMENT OR NON-INTERFERENCE AND THE IMPLIED WARRANTIES AND CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

For Source Components and Sample Materials listed in a Program's REDIST file, Licensee may redistribute modified versions of those Source Components or Sample Materials consistent with the terms of this license and any instructions in the REDIST file.

Export and Import Restrictions

This Program may contain cryptography. Transfer to, or use by, users of the Program may be prohibited or subject to export or import laws, regulations or policies, including those of the United States Export Administration Regulations. Licensee assumes all responsibility for complying with all applicable laws, regulations, and policies regarding the export, import, or use of this Program, including but not limited to, U.S. restrictions on exports or reexports.

The following units of measure may apply to Licensee's use of the Program.

Authorized User

Authorized User ("A/U") is a unit of measure by which the Program can be licensed.

An A/U is a unique person provided with credentials to access the Program. The Program may be installed on any number of computers or servers and each A/U may have simultaneous access to any number of instances of the Program at one time. An entitlement for an A/U is unique to that user and may not be shared, nor may it be reassigned other than for the permanent transfer of the A/U entitlement to another person.

The use of the Program by an A/U is only permitted with Authenticated Access. "Authenticated Access" shall mean the secured validation of a user's unique identity when accessing a HCL Domino Server. The user's unique identity could be defined by their Notes ID/password ("PW") combination, their HCL Domino HTTP Name/PW combination, or any other third party authentication source which defines the user's unique identity.

Licensee must obtain separate, dedicated CCB entitlements for each permanent or temporary or transient employee, or person paid for, or acting on behalf of Licensee's enterprise ("Enterprise") who is assigned A/U access to the Program in any manner directly or indirectly (for example: via a multiplexing program, device, or application server) through any means. In addition, Licensee can obtain CCB entitlements for any non-employee needing unrestricted A/U access to the Program.

The CCB entitlement includes access for Guest Users to HCL Domino servers deployed under this entitlement. A "Guest User" can be Anonymous, where "Anonymous Access" to the Program is without verification of a user's unique identity, or Authenticated Access with restricted maximum level of Domino application access (ACL) as "READER".

In addition, for External access, Licensee must obtain separate, dedicated CCX entitlements for each External User. An "External User" is a unique person NOT employed in Licensee's Enterprise, who is assigned Authorized User access to the Program with restricted maximum level of Domino application access (ACL) as "AUTHOR".

No permanent or temporary or transient employee, or person paid for, or acting on behalf of Licensee's Enterprise is permitted as an External User nor as a Guest User with Authenticated Access.

Licensee may assign a set of A/U credentials for a specific task or role, however, each person permitted the use of these credentials must be an individual A/U as well.

HCL Domino Servers deployed under CCB A/U entitlements can only be accessed by Licensee's entitled CCB A/Us, Guests, and CCX A/Us. In addition, the Servers may participate in mail routing (SMTP), directory lookup and authentication (LDAP) for non-HCL Domino programs and permit access to free/busy time information.

Entitlement Requirements

Licensee must have the adequate volume of User Entitlements for the use of the Program as set forth in the applicable transaction document between Licensee and HCL.

Entitlement to the program is provided through two models:

1 - Fixed Term Licenses – HCL will license the Program for a fixed term. Licensee's entitlement is terminated at the end of the fixed term, unless Licensee and HCL agree to renew it.

During the fixed term, licensee subscribes to program updates and has access to Support.

2 – Non Expiring License – HCL will license the Program for an indefinite term. Licensee's entitlement will remain valid until program is withdrawn from market and support by HCL with due notice. Licensee must subscribe to updates and Support to keep program updated and have access to Support.

A valid entitlement is required to install, copy and use the program(s).

This Program includes the following software which may not be used for Evil purposes.

- RapidJSON
