

LICENSE INFORMATION

Program Name:

HCL Workload Automation 9.5

The following standard terms apply to Licensee's use of the Program.

Limited use right

As described in the Master License Agreement (“MLA”), HCL grants Licensee a limited right to use the Program. The Program may also be referenced as the “Principal Program” herein. This right is limited to the level of Licensed Capacity, authorized use, such as a Processor Value Unit (“PVU”), a Resource Value Unit (“RVU”), a Value Unit (“VU”), or other specified level of use, paid for by Licensee as evidenced in the proof of entitlement. Licensee's use may also be limited to a specified machine, or only as a supporting program, or subject to other restrictions. As Licensee has not paid for all of the economic value of the Program, no other use is permitted without the payment of additional fees. In addition, Licensee is not authorized to use the Program to provide commercial IT services to any third party, to provide commercial hosting or timesharing, or to sublicense, rent, or lease the Program unless expressly provided for in the applicable agreements under which Licensee obtains authorizations to use the Program. Additional rights may be available to Licensee subject to the payment of additional fees or under different or supplementary terms. HCL reserves the right to determine whether to make such additional rights available to Licensee.

Prohibited Uses

Licensee may not use or authorize others to use the Program if failure of the Program could lead to death, bodily injury, or property or environmental damage.

Supporting Programs

Licensee is authorized to install and use the Supporting Programs identified below. Licensee is authorized to install and use such Supporting Programs only to support Licensee's use of the Principal Program under this License Information document and MLA. The phrase "to support Licensee's use" would only include those uses that are necessary or otherwise directly related to a licensed use of the Principal Program or another Supporting Program. The Supporting Programs may not be used for any other purpose. A Supporting Program may be accompanied by license terms, and those terms, if any, apply to Licensee's use of that Supporting Program. In the event of conflict, the terms in this License Information document supersede the Supporting Program's terms. Licensee must obtain sufficient entitlements to the Program, as a whole, to cover Licensee's installation and use of all of the Supporting Programs, unless separate entitlements are provided within this License Information document. For example, if this Program were licensed on a PVU (Processor Value Unit) basis and Licensee were to install the Principal Program or a Supporting Program on a 100 PVU machine (physical or virtual) and another Supporting Program on a second 100 PVU machine, Licensee would be required to obtain 200 PVU

entitlements to the Program. A “Supporting Program” is a Program that is part of another HCL Program and is identified as a Supporting Program in the Principal Program’s License Information document.

Third Party Operating Systems

For the convenience of Licensee, the Program may be accompanied by a third party operating system. The operating system is not part of the Program, and is licensed directly by the operating system provider (e.g., Red Hat Inc., Novell Inc., etc.) to Licensee. HCL is not a party to the license between Licensee and the third party operating system provider, and includes the third party operating system "AS IS", without representation or warranty, express or implied, including any implied warranty of merchantability, fitness for a particular purpose or non-infringement.

The following units of measure may apply to Licensee's use of the Program.

Monthly Jobs

Monthly Jobs is a unit of measure by which the Program can be licensed. A “Job” is an object within the Program that cannot be further divided and represents a computing process including all its sub-processes. Licensee must obtain sufficient entitlements to cover the maximum number of Jobs processed or managed by the Program in any calendar month.

In addition to the above, the following terms apply to Licensee's use of the Program.

Entitlements are not required for repeated runs of the same Job in any Calendar Day. A “Calendar Day” is defined as starting at 00:00 Greenwich Mean Time (GMT) and ending at 23:59 GMT.

PROHIBITED COMPONENTS

Licensee is not authorized to use any of the following components or functions of the Program:

- IBM WebSphere eXtreme Scale (of WebSphere Application Server)
- **HCL Workload Automation** Master, except to manage **HCL Workload Automation Agents**

Supporting Program Details

IBM DB2 Advanced Workgroup Server Edition

IBM DB2 Standard Edition

IBM WebSphere Application Server V9.0

- Entitlement: No Metric

- Use Limitations: Use by Principal Program

"No Metric" means this Supporting Program may be installed on as many machines and used by as many persons as is reasonably necessary within the use limitations that apply to this Supporting Program.

"Use by Principal Program" means that the Supporting Program is provided exclusively for use by the Principal Program. Neither Licensee nor any application, program or device is authorized to directly use or access the services of the Supporting Program except Licensee may access the Supporting Program to perform administrative functions for the Supporting Program such as backup, recovery and authorized configuration.

Additional IBM DB2 Advanced Workgroup Server Edition Details

The Supporting Program may use a maximum of 16 processor cores and 128 GB of memory on each physical or virtual server; however, if the Supporting Program is used on a cluster of servers configured to work together using database partitioning or other permitted clustering technology, the Supporting Program may use a maximum of 16 processor cores and 128 GB of memory across all virtual or physical servers in that cluster.
