

LICENSE INFORMATION

Program Name (Program Number):
HCL Digital Experience Manager v8.5 (5725-X96)

The following standard terms apply to Licensee's use of the Program.

Limited use right

As described in the HCL Master License Agreement (“MLA”), available at: <https://www.hcltechsw.com/wps/portal/resources/master-agreements> and this License Information document, HCL grants Licensee a limited right to use the Program. The Program may also be referenced as the “Principal Program” herein. This right is limited to the level of Licensed Capacity, authorized use, such as a Processor Value Unit ("PVU"), a Resource Value Unit ("RVU"), a Value Unit ("VU"), or other specified level of use, paid for by Licensee as evidenced in the Proof of Entitlement. Licensee's use may also be limited to a specified machine, or only as a Supporting Program, or subject to other restrictions. As Licensee has not paid for all of the economic value of the Program, no other use is permitted without the payment of additional fees. In addition, Licensee is not authorized to use the Program to provide commercial IT services to any third party, to provide commercial hosting or timesharing, or to sublicense, rent, or lease the Program unless expressly provided for in the applicable agreements under which Licensee obtains authorizations to use the Program. Additional rights may be available to Licensee subject to the payment of additional fees or under different or supplementary terms. HCL reserves the right to determine whether to make such additional rights available to Licensee.

Prohibited Uses

Licensee may not use or authorize others to use the Program if failure of the Program could lead to death, bodily injury, or property or environmental damage.

Specifications

Program's specifications can be found in the collective Description and Technical Information sections of the Program's Announcement Letters, Product License Information Documents, and product descriptions here <https://help.hcltechsw.com/>.

Supporting Programs

The Program is licensed as a multi-product package and includes the Supporting Programs identified below. Licensee is authorized to install and use such Supporting Programs only to support Licensee's use of the Principal Program under the MLA and within the limits of the Proofs of Entitlement for the Program (unless broader rights are provided elsewhere in this License Information document). The phrase "to support Licensee's use" would include only

those uses that are necessary or otherwise directly related to a licensed use of the Principal Program or another Supporting Program. The Supporting Programs may not be used for any other purpose. Licensee is not authorized to transfer or remarket the Supporting Programs separate from the Principal Program. A Supporting Program may be accompanied by license terms, and those terms, if any, apply to Licensee's use of that Supporting Program. In the event of conflict, the terms in this License Information document supersede the Supporting Program's terms. When Licensee's right to use the Program expires or terminates, Licensee must discontinue use, destroy or promptly return all copies of the Supporting Programs to the party from whom Licensee acquired the Program. If Licensee downloaded the Supporting Programs, Licensee should contact the party from whom Licensee acquired the Program. If Licensee wishes to license the Supporting Programs for any use beyond the limits set forth above, please contact an HCL Sales Representative or the party from whom Licensee acquired the Program to obtain the appropriate license.

The following are Supporting Programs licensed with the Program:

HCL Portal Server
HCL Web Content Manager
HCL Leap

Privacy

Licensee acknowledges and agrees that HCL may use cookie and tracking technologies to collect personal information in gathering product usage statistics and information designed to help improve user experience and/or to tailor interactions with users in accordance with the HCL Privacy Statement, available at: <https://www.hcltech.com/privacy-statement>.

Source Components and Sample Materials

The Program may include some components in source code form ("Source Components") and other materials identified as Sample Materials. Licensee may copy and modify Source Components and Sample Materials for internal use only provided such use is within the limits of the license rights under this License Information document and MLA, provided however that Licensee may not alter or delete any copyright information or notices contained in the Source Components or Sample Materials. HCL provides the Source Components and Sample Materials without obligation of support and "AS IS", WITH NO WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING THE WARRANTY OF TITLE, NON-INFRINGEMENT OR NON-INTERFERENCE AND THE IMPLIED WARRANTIES AND CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Terms for Oracle Outside In Technology

The Programs licensed under the MLA and this License information document include Outside In filtering and document viewing technology (the "Outside In Technology") supplied by Oracle

USA, Inc. ("Oracle"). The term "Outside In Technology" includes any technology licensed to Oracle by its suppliers. As used in this License Information document, the term "HCL supplier" shall be deemed to include Oracle and its suppliers. In addition to the terms and conditions of the MLA and this License Information document, as a condition of using the Outside In Technology, Licensee specifically agrees as follows:

- (1) Oracle USA, Inc. is a third party beneficiary.
- (2) Licensee may only transfer the Program by providing advance written notice to HCL and otherwise subject to the terms of the MLA and this License Information document.
- (3) Licensee may not publish the results of benchmark tests run on the Outside In Technology without prior written permission.
- (4) HCL may inform HCL suppliers of compliance verification results relating to such HCL suppliers' components.
- (5) To the extent allowed under applicable law, the Uniform Computer Information Transactions Act ("UCITA") does not apply.

Export and Import Restrictions

This Program may contain cryptography. Transfer to, or use by, users of the Program may be prohibited or subject to export or import laws, regulations or policies, including those of the United States Export Administration Regulations. Licensee assumes all responsibility for complying with all applicable laws, regulations, and policies regarding the export, import, or use of this Program, including but not limited to, U.S. restrictions on exports or reexports.

Third Party Data and Services

The Program may contain links to or be used to access third party data services, databases, web services, software, or other third-party content (all, "content"). Access to this content is provided "AS-IS", WITH NO WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING THE WARRANTY OF TITLE, NON-INFRINGEMENT OR NON-INTERFERENCE AND THE IMPLIED WARRANTIES AND CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. Access can be terminated by the relevant third parties at their sole discretion at any time. Licensee may be required to enter into separate agreements with the third parties for the access to or use of such content. HCL is not a party to any such separate agreements and as an express condition of this license Licensee agrees to comply with the terms of such separate agreements.

The following units of measure may apply to Licensee's use of the Program:

Authorized User

Authorized User is a unit of measure by which the Program can be licensed. An Authorized User is a unique person who is given access to the Program. The Program may be installed on any number of computers or servers and each Authorized User may have simultaneous access

to any number of instances of the Program at one time. Licensee must obtain separate, dedicated entitlements for each Authorized User given access to the Program in any manner directly or indirectly (for example: via a multiplexing program, device, or application server) through any means. An entitlement for an Authorized User is unique to that Authorized User and may not be shared, nor may it be reassigned other than for the permanent transfer of the Authorized User entitlement to another person.

Processor Value Unit (PVU)

Processor Value Unit (PVU) is a unit of measure by which the Program can be licensed. The number of PVU entitlements required is based on the processor technology (defined within the PVU Table by Processor Vendor, Brand, Type and Model Number at <https://www.hcltechsw.com/resources/license-agreements/pvu-license> and the number of processors made available to the Program. HCL continues to define a processor, for the purpose of PVU-based licensing, to be each processor core on a chip. A dual-core processor chip, for example, has two processor cores.

Licensee can deploy the Program using either Full Capacity licensing or Virtualization Capacity (Sub-Capacity) licensing according to the Passport Advantage Sub-Capacity Licensing Terms (see webpage below). If using Full Capacity licensing, Licensee must obtain PVU entitlements sufficient to cover all activated processor cores* in the physical hardware environment made available to or managed by the Program, except for those servers from which the Program has been permanently removed. If using Virtualization Capacity licensing, Licensee must obtain entitlements sufficient to cover all activated processor cores made available to or managed by the Program, as defined according to the Virtualization Capacity License Counting Rules at <https://www.hcltechsw.com/resources/license-agreements/pvu-license> .

* An Activated processor core is a processor core that is available for use in a physical or virtual server, regardless of whether the capacity of the processor core can be or is limited through virtualization technologies, Integrated Facility for Linux (IFL) utilization (Linux or zLinux), operating system commands, BIOS settings, or similar restrictions.

Entitlement Requirements

Licensee must have the adequate volume of User Entitlements for the use of the Program as set forth in the applicable transaction document between Licensee and HCL.

Entitlement to the Program is provided through two models:

(1) Fixed Term License: HCL will license the Program for a fixed term. Licensee's entitlement is terminated at the end of the fixed term, unless Licensee and HCL agree to renew it. During the fixed term, licensee subscribes to program updates and has access to Support.

(2) Non Expiring License: HCL will license the Program for an indefinite term. Licensee's entitlement will remain valid until program is withdrawn from market and support by HCL with due notice. Licensee must subscribe to Support to keep program updated and have access to Support.

If Licensee subscribes to Support for any Program above or other Programs which include one or more of the same Supporting Programs above, Licensee must subscribe to Support for the full volume of all entitlements for said programs.

A valid entitlement is required to install, copy and use the program(s).

Supporting Programs Details

HCL Portal Server

- Entitlement: Ratio 1 PVU/1 PVU
- Use Limitations: Unrestricted

HCL Web Content Manager

- Entitlement: Ratio 1 PVU/1 PVU
- Use Limitations: Unrestricted

HCL Leap

- Entitlement: Ratio 1 PVU/1 PVU
- Use Limitations: Unrestricted

"Ratio n/m" means that Licensee receives some number ('n') entitlements of the indicated metric for the identified program for every specified number ('m') entitlements of the specified metric for the Program as a whole. The specified ratio does not apply to any entitlements for the Program that are not of the required metric type. The number of entitlements for the identified program is rounded up to a multiple of 'n'. For example, if a Program includes 100 PVUs for an identified program for every 500 PVUs obtained of the Principal Program and Licensee acquires 1,200 PVUs of the Program, Licensee may install the identified program and have processor cores available to or managed by it of up to 300 PVUs. Those PVUs would not need to be counted as part of the total PVU requirement for Licensee's installation of the Program on account of the installation of the identified program (although those PVUs might need to be counted for other reasons, such as the processor cores being made available to other components of the Program, as well).

"Unrestricted" means that, notwithstanding the language above, Licensee's right to use the Supporting Program is not limited to use only in support of Licensee's use of the Principal Program. While the other restrictions on Licensee's use of the Supporting Program continue to apply, Licensee may use the Supporting Program for purposes independent of the licensed use of the Principal Program.
