

## LICENSE INFORMATION

The Program listed below is licensed under the following License Information terms and conditions in addition to the Program license terms previously agreed to by Customer and HCL. If Customer does not have previously agreed to license terms in effect for the Program, the HCL Master License Agreement applies.

Program Name:  
HCL Domino Volt 1.0

The following standard terms apply to Licensee's use of the Program.

### Limited use right

As described in the HCL Master License Agreement ("MLA") available at <https://www.hcltechsw.com/wps/portal/resources/master-agreements> and this License Information document, HCL grants Licensee a limited right to use the Program. This right is limited to the level of Authorized Use, such as an Authorized User or Floating User, a Processor Value Unit ("PVU"), or other specified level of use, paid for by Licensee as evidenced in the Proof of Entitlement. Licensee's use may also be limited to a specified machine, or only as a Supporting Program, or subject to other restrictions. As Licensee has not paid for all of the economic value of the Program, no other use is permitted without the payment of additional fees. In addition, Licensee is not authorized to use the Program to provide commercial IT services to any third party, to provide commercial hosting or timesharing, or to sublicense, rent, or lease the Program unless expressly provided for in the applicable agreements under which Licensee obtains authorizations to use the Program. Additional rights may be available to Licensee subject to the payment of additional fees or under different or supplementary terms. HCL reserves the right to determine whether to make such additional rights available to Licensee.

### Specifications

Program's specifications can be found in the collective Description and Technical Information sections of the Program's Announcement Letters, and Product License Information Documents.

### Prohibited Uses

Licensee may not use or authorize others to use the Program if failure of the Program could lead to death, bodily injury, or property or environmental damage.

### Multi-Product Install Image

The Program is provided as part of a multi-product install image.

Licensee is authorized to install and use only the Program (and its Bundled or Supporting Programs, if any) for which a valid entitlement is obtained and may not install or use any of the other software included in the image unless Licensee has acquired separate entitlements for that other software.

### Supporting Programs

Licensee is authorized to install and use the Supporting Programs identified below. Licensee is authorized to install and use such Supporting Programs only to support Licensee's use of the Principal Program under this Agreement. The phrase "to support Licensee's use" would only include those uses that are necessary or otherwise directly related to a licensed use of the Principal Program or another Supporting Program. The Supporting Programs may not be used for any other purpose. A Supporting Program may be accompanied by license terms, and those terms, if any, apply to Licensee's use of that Supporting Program. In the event of conflict, the terms in this License Information document supersede the Supporting Program's terms. Licensee must obtain sufficient entitlements to the Program, as a whole, to cover Licensee's installation and use of all of the Supporting Programs, unless separate entitlements are provided within this License Information document.

The following are Supporting Programs licensed with the Program:

HCL Enterprise Integrator for Domino

### Privacy

Licensee acknowledges and agrees that HCL may use cookie and tracking technologies to collect personal information in gathering product usage statistics and information designed to help improve user experience and/or to tailor interactions with users in accordance with the HCL Privacy Statement, available at <https://www.hcltechsw.com/wps/portal/resources/master-agreements>.

### Redistributables

If the Program includes components that are "Redistributable", they will be identified in the REDIST file that accompanies the Program. In addition to the license rights granted in the Agreement, Licensee may distribute the Redistributables subject to the following terms:

- 1) Redistribution must be in object code form only and must conform to all directions, instruction and specifications in the Program's accompanying REDIST or documentation;
- 2) If the Program's accompanying documentation expressly allows Licensee to modify the Redistributables, such modification must conform to all directions, instruction and specifications in that documentation and these modifications, if any, must be treated as

Redistributables;

- 3) Redistributables may be distributed only as part of Licensee's application that was developed using the Program ("Licensee's Application") and only to support Licensee's customers in connection with their use of Licensee's Application. Licensee's Application must constitute significant value add such that the Redistributables are not a substantial motivation for the acquisition by end users of Licensee's software product;
- 4) If the Redistributables include a Java Runtime Environment, Licensee must also include other non-Java Redistributables with Licensee's Application, unless the Application is designed to run only on general computer devices (for example, laptops, desktops and servers) and not on handheld or other pervasive devices (i.e., devices that contain a microprocessor but do not have computing as their primary purpose);
- 5) Licensee may not remove any copyright or notice files contained in the Redistributables;
- 6) Licensee must hold HCL, its suppliers or distributors harmless from and against any claim arising out of the use or distribution of Licensee's Application;
- 7) Licensee may not use the same path name as the original Redistributable files/modules;
- 8) Licensee may not use HCL's, its suppliers or distributors names or trademarks in connection with the marketing of Licensee's Application without HCL's or that supplier's or distributor's prior written consent;
- 9) HCL, its suppliers and distributors provide the Redistributables and related documentation without obligation of support and "AS IS", WITH NO WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING THE WARRANTY OF TITLE, NON-INFRINGEMENT OR NON-INTERFERENCE AND THE IMPLIED WARRANTIES AND CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE;
- 10) Licensee is responsible for all technical assistance for Licensee's Application and any modifications to the Redistributables; and
- 11) Licensee's license agreement with the end user of Licensee's Application must notify the end user that the Redistributables or their modifications may not be i) used for any purpose other than to enable Licensee's Application, ii) copied (except for backup purposes), iii) further distributed or transferred without Licensee's Application or iv) reverse assembled, reverse compiled, or otherwise translated except as specifically permitted by law and without the possibility of a contractual waiver. Furthermore, Licensee's license agreement must be at least as protective of HCL as the terms of this Agreement.

#### Source Components and Sample Materials

The Program may include some components in source code form ("Source Components") and other materials identified as Sample Materials.

Licensee may copy and modify Source Components and Sample Materials for internal use only provided such use is within the limits of the license rights under this Agreement, provided however that Licensee may not alter or delete any copyright information or notices contained in the Source Components or Sample Materials. HCL provides the Source Components and Sample Materials without obligation of support and "AS IS", WITH NO WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING THE WARRANTY OF TITLE, NON-INFRINGEMENT OR NON-INTERFERENCE AND THE IMPLIED WARRANTIES AND CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

For Source Components and Sample Materials listed in a Program's REDIST file, Licensee may redistribute modified versions of those Source Components or Sample Materials consistent with the terms of this license and any instructions in the REDIST file.

#### Export and Import Restrictions

This Program may contain cryptography. Transfer to, or use by, users of the Program may be prohibited or subject to export or import laws, regulations or policies, including those of the United States Export Administration Regulations. Licensee assumes all responsibility for complying with all applicable laws, regulations, and policies regarding the export, import, or use of this Program, including but not limited to, U.S. restrictions on exports or reexports.

#### Third Party Data and Services

The Program may contain links to or be used to access third party data services, databases, web services, software, or other third party content (all, "content"). Access to this content is provided "AS-IS", WITH NO WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING THE WARRANTY OF TITLE, NON-INFRINGEMENT OR NON-INTERFERENCE AND THE IMPLIED WARRANTIES AND CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. Access can be terminated by the relevant third parties at their sole discretion at any time. Licensee may be required to enter into separate agreements with the third parties for the access to or use of such content. HCL is not a party to any such separate agreements and as an express condition of this license Licensee agrees to comply with the terms of such separate agreements.

This product is distributed with the following content: GDB; Net-tools; Procps-ng; Rsync (the "GPL Software"). The GPL Software is governed by the following terms:

The GPL Software is open source software that is used with this HCL software program (the "HCL Product"). The GPL Software is not owned by HCL Technologies ("HCL"). Use, copying, distribution and modification of the GPL Software is governed by the GNU General Public License ("GPL") version 2.0. A copy of the GPL license can be found in the

same directory where the GPL Software is located. Additionally, a copy of the GPL license can be found at <http://www.opensource.org/licenses> or write to the Free Software Foundation, Inc., 59 Temple Place, Suite 330, Boston, MA 02111-1307 USA. Use of the HCL Product is governed solely by the HCL license agreement ("EULA"), not by the GPL license. You cannot use, copy, modify or redistribute any HCL Product code except as may be expressly set forth in the EULA. The GPL Software is provided "AS IS" WITHOUT WARRANTY OR CONDITION OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. Further details of the disclaimer of warranty with respect to the GPL Software can be found in the GPL license itself. To the full extent permitted under applicable law, HCL disclaims all warranties and liability arising from or related to any use of the GPL Software.

This product is distributed with the following content: LSOF v.4.91 (the "LGPL Software"). The LGPL Software is governed by the following terms:

The LGPL Software is open source software that is used with this HCL software program (the "HCL Product"). The LGPL Software is not owned by HCL Technologies ("HCL"). Use, copying, distribution and modification of the LGPL Software are governed by the GNU Lesser General Public License ("LGPL") version 2.1, February 1999. A copy of the LGPL license can be found in the distribution of the LGPL Software. Additionally, a copy of the LGPL license can be found at <http://www.opensource.org/licenses>. Use of the HCL Product is governed solely by the HCL license agreement ("EULA"), not by the LGPL license. You cannot use, copy, modify or redistribute any HCL Product code except as may be expressly set forth in the EULA. The LGPL Software is provided "AS IS" WITHOUT WARRANTY OR CONDITION OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. Further details of the disclaimer of warranty with respect to the LGPL Software can be found in the LGPL license itself.

The following units of measure may apply to Licensee's use of the Program.

#### Authorized User

Authorized User is a unit of measure by which the Program be licensed. An Authorized User is a unique person who is given access to the Program. The Program may be installed on any number of computers or servers and each Authorized User may have simultaneous access to any number of instances of the Program at one time. Licensee must obtain separate, dedicated entitlements for each Authorized User given access to the Program in any manner directly or indirectly (for example: via a multiplexing program, device, or application server) through any

means. An entitlement for an Authorized User is unique to that Authorized User and may not be shared, nor may it be reassigned other than for the permanent transfer of the Authorized User entitlement to another person.

### Floating User

A Floating User is a unit of measure by which the Program can be licensed. A Floating User can access a limited or unlimited pool of licenses, dependent on the contracted licensing volume between Customer and HCL. When a Floating User wishes to run the application, it requests a license from licensee's relevant FlexNet central license server. If a license is available, the license server allows the application to run.

If no license is available, and if licensee has included "Overdraft" in the license terms, the license server allows the application to run and raise an overdraft billing request.

When the Floating User has completed its use of the application, or when the authorized license period expires, the license is reclaimed by the license server and made available to other Floating Users.

The program must connect to FlexNet(on prem or cloud) one (1) time every thirty (30) days. Also, program must connect to FlexNet within 30 days of first install.

If Customer is using a locally deployed FlexNet license server with no external access, customer must provide the usage report on above schedule to designated HCL contract point per the order form.

In addition to the above, the following terms apply to Licensee's use of the Program.

Use of the Program is only permitted with Authenticated Access.

"Authenticated Access" shall mean the secured validation of a user's unique identity when accessing a HCL Domino server. The user's unique identity could be defined by their Notes ID/password ("PW") combination, their HCL Domino HTTP Name/PW combination, or any other third party authentication source which defines the user's unique identity. In contrast to Authenticated Access, "Anonymous Access" is a level of connectivity without verification of a user's unique identity which is not supported under this license.

### Entitlement Requirements

Customer must have the adequate volume of User Entitlements for the use of the Program as set forth in the Customer and HCL licensing contract.

Entitlement to the program is provided through two models:

1 - Fixed Term Licenses ñ HCL will license the Program for a fixed

term. Licensee's entitlement is terminated at the end of the fixed term, unless Licensee and HCL agree to renew it. During the fixed term, licensee Subscribes to program updates and has access to Product Support.

2 A Non Expiring License – HCL will license the Program for an indefinite term. Licensee's entitlement will remain valid until program is withdrawn from market and support by HCL with due notice. Licensee must Subscribe to updates and support to keep program updated.

Use of the Program, HCL Domino Volt, is only permitted with an active entitlement to one of the following programs:

HCL Domino Notes Complete Collaboration  
HCL Bundle Mail & Social Collaboration

– Entitlement: Ratio 1 AU/1 AU

A valid entitlement is required to install, copy and use the program(s).
