

LICENSE INFORMATION

The Programs listed below are licensed under the following License Information terms and conditions in addition to the Program license terms previously agreed to by Client and HCL. If Client does not have previously agreed to license terms in effect for the Program, the HCL Master License Agreement applies.

Program Name (Program Number):

HCL Sametime Complete 9.0.1 Feature Pack 1 (5725-M36)

HCL Sametime Complete 9.0.1 Feature Pack 1 (CC013374)

The following standard terms apply to Licensee's use of the Program.

Limited use right

As described in the HCL Master License Agreement("MLA") and this License Information, HCL grants Licensee a limited right to use the Program. This right is limited to the level of Authorized Use, such as a Processor Value Unit ("PVU"), a Resource Value Unit ("RVU"), a Value Unit ("VU"), or other specified level of use, paid for by Licensee as evidenced in the Proof of Entitlement. Licensee's use may also be limited to a specified machine, or only as a Supporting Program, or subject to other restrictions. As Licensee has not paid for all of the economic value of the Program, no other use is permitted without the payment of additional fees. In addition, Licensee is not authorized to use the Program to provide commercial IT services to any third party, to provide commercial hosting or timesharing, or to sublicense, rent, or lease the Program unless expressly provided for in the applicable agreements under which Licensee obtains authorizations to use the Program. Additional rights may be available to Licensee subject to the payment of additional fees or under different or supplementary terms. HCL reserves the right to determine whether to make such additional rights available to Licensee.

Specifications

Program's specifications can be found in the collective Description and Technical Information sections of the Program's Announcement Letters.

Supporting Programs

The Program is licensed as a multi-product package and includes the Supporting Programs identified below. Licensee is authorized to install and use such Supporting Programs only to support Licensee's use of the Principal Program under this Agreement and within the limits of the Proofs of Entitlement for the Program (unless broader rights are provided elsewhere in

this License Information document). The phrase "to support Licensee's use" would include only those uses that are necessary or otherwise directly related to a licensed use of the Principal Program or another Supporting or Bundled Program. The Supporting Programs may not be used for any other purpose. Licensee is not authorized to transfer or remarket the Supporting Programs separate from the Principal Program. A Supporting Program may be accompanied by license terms, and those terms, if any, apply to Licensee's use of that Supporting Program. In the event of conflict, the terms in this License Information document supersede the Supporting Program's terms. When Licensee's right to use the Program expires or terminates, Licensee must discontinue use, destroy or promptly return all copies of the Supporting Programs to the party from whom Licensee acquired the Program. If Licensee downloaded the Supporting Programs, Licensee should contact the party from whom Licensee acquired the Program. If Licensee wishes to license the Supporting Programs for any use beyond the limits set forth above, please contact an HCL Sales Representative or the party from whom Licensee acquired the Program to obtain the appropriate license.

The following are Supporting Programs licensed with the Program:

HCL DB2 Enterprise Server Edition

HCL SolidDB

HCL WebSphere Application Server

HCL Domino

HCL Installation Manager and Packaging Utility for the Rational Software Development Platform

Prohibited Components

Notwithstanding any provision in the Agreement, Licensee is not authorized to use any of the following components or functions of the Program:

HCL WebSphere eXtreme Scales (of WebSphere Application Server)

Terms for Oracle Outside In Technology

The Programs licensed under this Agreement include Outside In filtering and document viewing technology (the "Outside In Technology") supplied by Oracle USA, Inc. ("Oracle"). The term "Outside In Technology" includes any technology licensed to Oracle by its suppliers. As used in the Agreement, the term "HCL supplier" shall be deemed to include Oracle and its suppliers. In addition to the terms and conditions of this Agreement, as a condition of using the Outside In Technology, Licensee specifically agrees as follows:

(1) Oracle USA, Inc. is a third party beneficiary to this Agreement.

(2) Licensee may only transfer the Program by providing advance written notice to HCL and

otherwise subject to the terms of this Agreement.

(3) Licensee may not publish the results of benchmark tests run on the Outside In Technology without prior written permission.

(4) HCL may inform HCL suppliers of compliance verification results relating to such HCL suppliers' components.

(5) To the extent allowed under applicable law, the Uniform Computer Information Transactions Act ("UCITA") does not apply.

Technology Preview Code

Technology Preview Code (TPC) may be included or distributed with the Program or updates to it but are not part of the Program. TPC is licensed under the same terms as the Program, except as provided below. TPC will be identified as such in the Notices File (or in an updated Notices File accompanying the updates). Some or all of the TPC may not be made generally available by HCL as or in a product. Licensee is permitted to use TPC only for internal use for evaluation purposes and not for use in a production environment. The Notices File may limit this evaluation use to an evaluation period. If so, at the end of such evaluation period Licensee must cease using and uninstall the TPC. HCL provides the TPC without obligation of support and "AS IS," WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, THE WARRANTY OF TITLE, NON-INFRINGEMENT OR NON-INTERFERENCE AND ANY IMPLIED WARRANTIES AND CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

Licensee may not transfer TPC to another party except as a transfer accompanying the Program. TPC may contain a disabling device that will prevent it from being used after the evaluation period ends. Licensee will not tamper with this disabling device or the TPC. Licensee should take precautions to avoid any loss of data that might result when the TPC can no longer be used.

Licensee assigns to HCL all right, title, and interest (including ownership of copyright) in any data, suggestions, or written materials that 1) are related to the Technology Preview Code and 2) Licensee provides to HCL. Upon HCL's request, Licensee will sign additional documents necessary to assign such rights. In addition to the foregoing, Licensee grants to HCL a non-exclusive, irrevocable, unrestricted, worldwide and paid-up right and license to a) include in any product or service any idea, know-how, concept, technique, invention, discovery or improvement, whether or not patentable, that Licensee provides to HCL related to the Technology Preview Code b) use, manufacture and market any such product or

service, and c) allow others to do any of the foregoing.

Licensee agrees to treat the following as "HCL Confidential Information" regardless of whether they contain restrictive markings indicating the confidential nature thereof or have been identified as HCL Confidential Information prior to disclosure: (a) the Technology Preview Code, (b) any information provided to Licensee by HCL with regard to the Technology Preview Code including, but not limited to, related materials such as specifications, plans, trends, strategies, benchmarks, performance characteristics, comparisons and other assessments of the Technology Preview Code, (c) any information related to Licensee's access to the Technology Preview Code including, but not limited to, passwords or other access codes, and (d) all data, feedback, suggestions and/or written materials that Licensee provides to HCL related to the Technology Preview Code. Licensee is authorized to use the HCL Confidential Information for the purpose for which it was disclosed or otherwise for the benefit of HCL. Notwithstanding any other terms of this Agreement, Licensee agrees not to communicate, publish, disseminate or otherwise discuss with or disclose to any third party the HCL Confidential Information (including but not limited to articles, papers or other written materials pertaining to the HCL Confidential Information) prior to HCL making such HCL Confidential Information publicly available without a non-disclosure obligation. Notwithstanding the above, Licensee does not have a confidentiality obligation to Technology Preview Code identified in the Notices File as non-confidential.

Licensee agrees to use the same care and discretion to avoid disclosure of the HCL Confidential Information as Licensee uses with Licensee's own similar information that Licensee does not wish to disclose, but in no event will such degree of care be less than reasonable care. Licensee's obligations with respect to the HCL Confidential Information will continue for a period of two years from Licensee's receipt of the HCL Confidential Information. Licensee agrees not to disclose to HCL any information that is considered confidential or proprietary to Licensee or any third party except under a signed, separate, written confidential agreement.

Notwithstanding the existence of any confidentiality or other agreement Licensee may have with HCL pertaining to confidential information, the preceding paragraphs will govern the treatment of the HCL Confidential Information.

Prohibited Uses

Licensee may not use or authorize others to use the Program, alone or in combination with other services or products, in support of any of the following high risk activities: design, construction, control, or maintenance of nuclear facilities, mass transit systems, air traffic control systems, automotive control systems, weapons systems, or aircraft navigation or

communications, or any other activity where program failure could give rise to a material threat of death or serious personal injury.

Export and Import Restrictions

This Program may contain cryptography. Transfer to, or use by, users of the Program may be prohibited or subject to export or import laws, regulations or policies, including those of the United States Export Administration Regulations. Licensee assumes all responsibility for complying with all applicable laws, regulations, and policies regarding the export, import, or use of this Program, including but not limited to, U.S. restrictions on exports or reexports.

The following units of measure may apply to Licensee's use of the Program.

Authorized User

Authorized User is a unit of measure by which the Program can be licensed. An Authorized User is a unique person who is given access to the Program. The Program may be installed on any number of computers or servers and each Authorized User may have simultaneous access to any number of instances of the Program at one time. Licensee must obtain separate, dedicated entitlements for each Authorized User given access to the Program in any manner directly or indirectly (for example: via a multiplexing program, device, or application server) through any means. An entitlement for an Authorized User is unique to that Authorized User and may not be shared, nor may it be reassigned other than for the permanent transfer of the Authorized User entitlement to another person.

Any computing device that requests the execution of or receives for execution a set of commands, procedures, or applications from the Program or that is otherwise managed by the Program is considered a separate User of the Program and requires an entitlement as if that device were a person.

In addition to the above, the following terms apply to Licensee's use of the Program.

Authorized Users may use their entitlement to communicate with External Users without requiring a separate entitlement for those External Users. For example, an Authorized User can distribute HCL Sametime Connect Clients to External Users for the sole purpose of accessing the Authorized User's Servers.

An External User is a unique person, not employed in, paid by, or acting on behalf of Licensee's Enterprise, who is given access to the Program in any manner directly or indirectly (for example: via a multiplexing program, device, or application server) through any means by an Authorized User entitled to use the Program to communicate only with

those same entitled users.

THE PROGRAM SHOULD NOT BE USED TO MAKE EMERGENCY CALLS (E.G. 211, 911, 999, ETC). WITHOUT LIMITING THE GENERALITY OF ANY OF THE FOREGOING, HCL, ITS AFFILIATES, SUPPLIERS AND RESELLERS SPECIFICALLY DISCLAIM ANY EXPRESS OR IMPLIED WARRANTY OF FITNESS FOR SUCH PURPOSE.

Supporting Program Details:

HCL DB2 Enterprise Server Edition:

- Use Limitations: Use by Principal Program

"Use by Principal Program" means that the Supporting Program is provided exclusively for use by the Principal Program. Neither Licensee nor any application, program or device is authorized to directly use or access the services of the Supporting Program except Licensee may access the Supporting Program to perform administrative functions for the Supporting Program such as backup, recovery and authorized configuration.

HCL DB2 Enterprise Server Edition:

In an idle/warm standby environment, you may utilize the Supporting Program without acquiring more licenses in support of the Principal Program.
