Taking the Pain Out of Expense Claims with Convenient Mobile Apps

Challenge
In today's environment of strict company policies and procedures at all levels, it is essential to contain the cost and control expenses to minimize report expenses.

Solution
Acubiz digitalized and automated expense management by using a mobile application and a web portal, eliminating paper and providing a user-friendly interface.

Results
Employees can now submit claims, upload, and track reports in a matter of seconds, bringing tremendous relief from manual expenses.

Modemizing Expense Management
For a company to progress in today's world, it has to turn to technology and complete its expense report quickly and easily. Acubiz, a leading HCL Business, takes the lead in this story. We find out what is now revolutionizing the expense management process and what is the benefit of using Acubiz.

Going Mobile
Going mobile is the essence of this problem, and Acubiz wanted to make Acubiz EMBRACE easy to use on any mobile device. Besides, there are a few reasons:

- The need to work on the go
- Easy access to the system
- More flexibility

Acubiz EMBRACE is easy to use, and it provides the following features:

- Easy submission of claims
- Quick approval process
- Real-time tracking of claims

Faster, More Flexible Claims
With Acubiz EMBRACE, the claims process is significantly simplified, reducing the time taken to submit expenses by 24 hours, and简化 the process for employees. Employees can now submit claims within minutes, and the claims are processed within a few seconds, reducing the waiting time for employees.

About the Company
HCL is a global technology leader with over 100,000 employees in more than 50 countries. Acubiz is one of the leading providers of expense management software.
